INFRASTRUCTURE

We are committed to the expansion and development of the fuel distribution industry in South Africa, particularly where this will benefit smaller players. In order to achieve this, we are committed to investing in developing storage and transport infrastructure. We are also open to discussing collaborative arrangements with independent players in the arena, in pursuit of meeting our respective objectives.

GOVERNANCE

The focus on sound corporate governance principles, is of great importance to the company and underpins the sustainable success of the company. In order to achieve this, we have employed corporate governance internal controls and processes, for our business activities.

ENVIRONMENT

As a fuel distribution company, we are concerned with safeguarding the planet for future generations. We work closely with our suppliers, customers, and end-users, to provide education on how fuel-efficiency can reduce an organization's carbon footprint. Not only do we support government initiatives aimed at achieving higher standards for clean fuels, but we also work closely with private institutions that provide alternative green fuels globally.

SOCIAL RESPONSIBILITY

We are committed to the livelihood and advancement of South African communities and have employed a team of project managers to identify community projects and initiatives that require intervention to encourage improvement in quality of life.
